FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Ms. Donna R. Searcy
Secretary
Federal Communications Commission
1919 M. Street, N.W., Room 2227
Washington, D.C. 20554

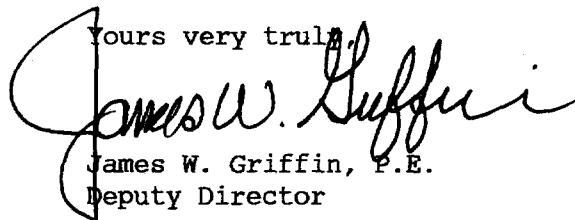

RE: PR Docket No. 92-235; Consensus Plan Developed by the Land Mobile
Communications Council ("LMCC")

Dear Ms. Searcy:

Recently, the Land Mobile Communications Council filed a Consensus Plan with the Commission providing for an increase in spectrum capacity on 150-174 MHz band and in the 421-512 MHz range, the implementation of increased power levels for these frequencies, and the implementation of exclusive assignments.

The Texas Turnpike Authority operates its public safety and highway maintenance operations within the 150-174 MHz band. This Agency of the State of Texas is fully convinced that the Consensus Plan proposed under subject docket by the Land Mobile Communications Council correctly represents the interests of this Agency. The Texas Turnpike Authority urges the Federal Communications Commission to accept and implement the referenced Consensus Plan.

Yours very truly,

James W. Griffin, P.E.
Deputy Director
